**Name and Surname** : Bulent M. Ertugrul  
**Address** : Geda Diabetic Foot and Wound Clinic, İzmir - Turkey  
**Phone** : **Work** +90256 4441256 ext3071  
**E-mail** : bulentertugrul@yahoo.com  
**Date of Birth** : 14, June, 1968  
**Academic degree** :

2017 - 2020 Professor of Infectious Diseases and Clinical Microbiology  
- Adnan Menderes University, School of Medicine,  
Department of Infectious Diseases and Clinical  
Microbiology  
2012 - 2017 Associated Professor of Infectious Diseases and Clinical  
Microbiology - Adnan Menderes University, School of  
Medicine, Department of Infectious Diseases and Clinical  
Microbiology  
2007 – 2012 Assistant Professor of Infectious Diseases and Clinical  
Microbiology - Adnan Menderes University, School of  
Medicine, Department of Infectious Diseases and Clinical  
Microbiology  
2004 – 2007 Specialist of Infectious Diseases and Clinical Microbiology  
- Adnan Menderes University, School of Medicine,  
Department of Infectious Diseases and Clinical  
Microbiology  
1993 - 1999 General Practitioner - Republic of Turkey, Ministry of  
Health

### **Current Position**

Geda Diabetic Foot and Wound Clinic, İzmir - Turkey

## Personal Interests and Technical experiences

- Diabetic foot infections
- Chronic wound care
- Orthopaedic infections
- Fungal infections
- Viral Hepatitis
- Intensive Care Unit Infections
- Bacteriological culture
- Bacterial resistance

## Educational background

1999 – 2003 :Residency status in Infectious Diseases and Clinical Microbiology - Istanbul University, School of Medicine, Department of Infectious Diseases and Clinical Microbiology

1984 – 1993 : Anatolia University, School of Medicine, Eskisehir

## Overseas Work experience

1 – 30 September 2014 Observer Academic Member, University of Oxford Nuffield Orthopaedic Centre Bone Infection Unit, Oxford – UK

24 - 28 April 2017 Harvard Medical School Global and Continuing Education, Boston - USA

9 - 25 August 2019 Observer Academic Member, University of Zurich, Balgrist University Hospital Infection Unit, Zurich - Switzerland

## Research experiences

- 2018 - 2022 "Phenotypic and genotypic characterization of FADU171, fADU172, fADU173 phages isolated and purified in our laboratory and active against *Pseudomonas aeruginosa* from diabetic foot infections" TÜBİTAK, Project number: 218S464, **Project Manager**
- 2017 - 2018 "Evaluation of the Efficacy and Safety of Topical Epidermal Growth Factor Regen-D® in Diabetic Foot Wounds: Randomized, Parallel Group Phase III Study" Gen Inc. and Turkish Republic Ministry of Health Turkish Drug and Medical Devices Agency No. 93189304-514.03.01-106352 **Co-investigator**
- 2015 – 2016 "Antibacterial effectiveness of platelet products (PRP, PPP, *S.aureus*, one of the causative agents in acute or chronic sinusitis" **Co-investigator**
- 2013 – 2016 "The effects of ozone on bacterial growth and thiol-disulphide homeostasis in vascular graft infection caused by MRSA in rats" Adnan Menderes University, Scientific Research Projects, **Co-investigator**
- 2013 – 2015 "Changes in nasal flora one year after endoscopic dacryocystorhinostomy" Adnan Menderes University, Scientific Research Projects, **Co-investigator**
- 2013 – 2014 "Intralesional Epidermal Growth Factor in the Treatment of Diabetic Foot Ulcers; Retrospective Multicentre Study" Hasbiotech Inc., **Project Manager**
- 2009 – 2011 "Ig G prevalence of Crimean –Congo haemorrhagic fever in Aegean Region of Turkey" Adnan Menderes University, Scientific Research Projects TPF – 09024, **Project Manager**
- 2009 – 2010 "Determining serum voriconazole levels and factors affecting its concentration in patients receiving voriconazole due to fungal infections" Adnan Menderes University, Scientific Research Projects TPF, **Project Manager**.
- 2009 – 2010 "Determining the relationship between the presence of virulence factors in *E. coli* and the production of extended spectrum beta lactamase" Adnan Menderes University, Scientific Research Projects TPF – 09012, **Project Manager**

2005 – 2008

“The role of sialic acid in bacterial adhesion and signal production and potential treatment options by sialic acid”  
“TÜBİTAK, 104S297, *Co-investigator*
